Premier Yoshida's Candidates Front

Conservative parties, led by Premier Shigeru Yoshida's "Liberals", took a huge lead tonight as returns poured in from Japan's first election since the end of the Allied occupation.

Incomplete returns apparently assured the election of 152 candidates to the Lower House of the Japanese Diet from the three parties generally regarded as Conservative. At stake in today's

elections were 466 seats. The Liberals led the sweep; 117 of their candidates won seats in returns reported up to 10.30 p.m., Hongkong Time. The Progressives won 27 seats and

the Right-wing Socialists eight. Incomplete figures indicated that 35,000,000 Japanese went to the polls, or 75 per cent of the electorate. The turn-out broke the previous record of 74 per cent set in

Labour Party Conference Avoids Making Decision On Korea Resolution

Morecambe, Oct. 1. The annual conference of the British Labour Party today avoided taking a vote on a resolution calling for India's good offices to try to end the Korean truce deadlock.

A resolution from the Northampton Labour Party urging this course was remitted to the Party executive at the request of the former Colonial Secretary, Mr James Griffiths.

The resolution also condemned the bombing of the Yalu River power plants and the use of the napalm bomb in Korea and urged the admission of the People's Republic of China to the United Nations.

American Plan Drawn Up Ending Korea

Washington, Oct. 1.
The United States Secretary of State, Mr
Dean Acheson, told his weekly Press conference
today that any rumours that the United States had
decided to produce any new plan for ending the
Korean War at the United Nations General Assembly were untrue.

Mr Acheson had been asked to comment on a newspaper report that the United States had drawn up a resolution asking the General Assembly to call on the Communists and North Koreans to end the war in Korea on the basis of the truce terms recently submitted by the United Nations delegates at Panmunjom.

He said: "We are continuing through our military representatives in Korea the negotiations for an armistice and we are all familiar with what has been done in the last few days. "Whether there will be an armistice or not I cannot tell and no one can except the people on the other side (the Communists), and I take they will not do so until the next meeting."

Mr Acheson said that what happened at the negotiations in Korea would affect what happens at the General Assem-

"We have been exploring the ituation with a great many delegations to work out our stand on various contingencies. Nothing has been firmed up." NOT CORRECT

Mr Acheson thought this exploration had given rise to the rumcurs about new United States proposals.

Answering Turther questions, he said it would not be helpful to try to speculate on any de-cisions concerning a Korean armistice which might be made by the Communists. The Allies would have to meet

the situation as it developed, When a correspondent asked Mr Acheson if his statement constituted a denial that the reported United States resolution existed, Mr Acheson said:

VISA BY AMERICA

London, Oct. 1. The Rev. Michael Scott, a champion of the rights of African peoples, has so far been unable to get a visa from the U.S. Embassy in London to attend the United Nations General Assembly, opening in New York on October 14, as the "accredited representative" of the International League for the Rights of Man."

He told a Press conference that he applied for a visa on July 30, 1952, and in a subsequent interview with the United States Vice-Consul had declined to take the oath which was prescribed under the provisions of the United States Internal Security Act of 1950. Mr Scott said that according to the oath, a person had to "solemnly swear that I am not a member, nor have I ever been n member of the Communist,

Nazl, Fascist, Falange or any other totalitarian party or any section, branch, subsidiary, affiliate or sub-division of such party in any country. Furthermore I have never been affiliated with any such organisation. I clearly understand that under the provisions of the Internal Security Act of 1950, I am inadmissible to the United States if I have been in any way amliated with any Communist, Nozl, Fascist, Falange or totalitarian organisation.'

He added: "I am not a Communist, but I cannot undertake to give on oath a full and truthful statement on all these questions which, having regard to all their moral and legal implications can hardly be considered fair questions. I am prepared to give any undertaking regarding my movements and activities while in the United States, which the authorities may consider necessary for security reasons to cover the activities or expressions of opinion of those attending the United Nations during their stay or, transit through American territory."

A PRINCIPLE

"It seems to me that there is an important question of principle involved in this matter. I understand that the treaty regarding the situation of the United Nations headquarters in the United States makes a of Asia and the Pacific", opening tomorrow in provision for the free access to the United Nations of those having accreditation to it," he

CHESS PROBLEM By R. PALKOSKA :.

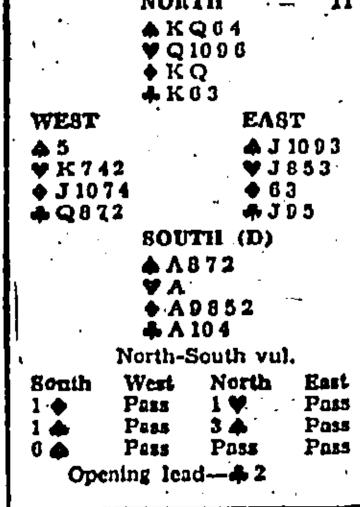

White, 4 pieces. White to play: mate in three. Solution to yesterday's problema 1, Q-R3, any; 2, R, B (dis ch),

COUTH'S decision to bid six somewhat questionable, but it worked out pretty will for him. He knew that his partner was very conservative, and therefore suspected that the dummy would better than the bidding theoretically indicated.

West opened the deuce of clubs, and South won in his own hand with the ace. The question now was whether to set up the South hand or the North hand.

slightly when West shows out on the second round. The 4-2 break inc-diamonds then produces a big gulp

South didn't play the hand so woodenly. After winning the first trick with the ace of clubs he laid down the ace of hearts and entered dummy twice with diamonds to ruff low hearts. If the king of hearts had dropped, the contract would have been year cary.

As It happened, East ruffed the ace of diamonds and returned a trump, but South still had another play for his contract. He won the tripp return with the ace, entered dummy with the king of clubs, and ruffed dummy's last heart. Since both opponents followed on the fourth round of hearts, South got away with this rull.

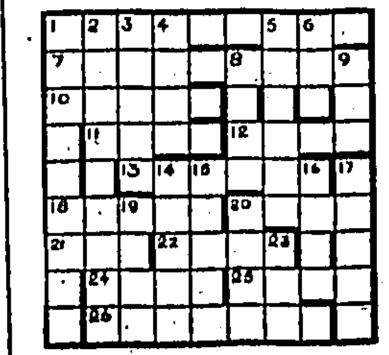

Now South could rull a club in dummy and draw the last trumps slam was thus made even though the trumps were 4-1 and the diamonds 4-2.

Q-The bidding has been:

You, South, hold: Spades J-7-3, Hearts A-Q-J-10-5-2, Diamond 4, Clubs A-K-8, What do you do?.

Mrs Chiu Chun-chiu, four times co-winner of the Colony Ladies' Doubles tennis title as far back as 1936, 1937, 1938 and 1939, successfully collected another title yesterday at the Ladies' Recreation Club when she and Mrs Violet Fowler defeated Mrs Mary Chow and Miss Ulian Khoo in the final of the Colony Ladies' Doubles Championship by 6-2 and 6-4.

WILSON

Philadelphia, Sept. 24:

The borrowed time that Jersey Joe Walcott has been living on for an unadmitted number of years ran out just 44 seconds after the start of the 13th round of the old man's defence of the world's heavyweight title against smashing, bashing, crashing Rocky Marciano at the Municipal Stadium, Philadelphia.

It ran out like sand from an hour-glass which has been smashed by a hammer. It ran out after the hardest, single punch I have ever seen one man land on another since Joe Louis won the same title from game Jim Braddock 15 years ago. It ran out after the best heavyweight title fight for years and years.

There was viciousness in this fight, and maybe even hatred from the old man, the representative of his race, who had sneered at this tough, crude youngster and said that ho thought this fight was his softest touch, and that if he lost it he wanted his name to be expunged from the record books for ever.

Wilde's Big Fight Was Not

By CHARLES BARNETT The failure of Sergt Percy Jones to make the flyweight limit for his proposed belt match with Tancy Lee was something in the nature of a tragedy, for the little Welshman was taken on the roads to run off the extra weight and was seen on the Thames Embankment in a state of collapse. By that night, however, he had recovered sufficiently to meet Lee in a contest at catchweight, but it was not surprising that he was

easily beaten. That defeat paved the way for Jimmy Wilde to become a belt aspirant, but the fight fans outside Wales had still to be convinced that one so frail and anaemiclooking could improve upon the performances of Jones.

Free Lead Trading

Big Fall In Prices

London, Oct. 1. Lead prices fell £24 a ton, and 4,300 tons of the metal changed hands today, when the London Metal Exchange resumed free trading in lead after 13 years of Government control.

The price fall-from the controlled price of £131 a ton to this afternoon's free trading price of £107-worried the Government broker, since Britain stands to lose heavily on the lead it now

The latest figures showed that the Government has about 102,-000 tons of lead; on today's book values this could mean a loss of about £2,500,000.

Both lead and tin trading have been handed back to private enterprise and industry, and the industry intends to campaign for relaxed control on copper and zine as soon as possible. Today's first bid was £110.

This afternoon it was £107. When the market clased, brokers said that further price drops in the near future would not surprise them. This was the first time that

free dealings in lead have Canada US\$1.04% taken place in London since August 31, 1939. During the intervening period the Ministry of Materials

(formerly the Ministry of Supply) has been the sole importer | South Africa The freeing of the lead market is the second main move West Germany in the Government's declared Holland intention of handing back mar- Italy kets to private enterprise. Tin

Russia's Diplomatic Victory Over Red China Will Be Stressed At Party Congress

London, Oct. 1.

Russia's diplomatic victory over Communist China, and the resulting strengthening of Moscow's influence in the Far East, have come justin time to be presented to the 19th Party congress as a tangible proof of the Kremlin's power and its firm "leadership" of the Communist bloc,

experts said here. When the Party Secretary, Mr Georgi Maximilianovich Malenkov, stands up on Sunday, October 5, to make his general report to the Party congress, the Moscow talks are likely to figure prominently in the first part of his speech, which will deal with the Soviet Union's international

position. Mr Malenkov will also review Russia's economic development and give an official appreciation of the state of the Communist Party of the USSR, the rigidlydisciplined organisation which has ruled the Soviet Union for the last 35 years.

Why we say Athletic

The preliminary races in an athletic event which attracts a large number of entries are called "heats". They take this name from the violence and ardour with which knights used to throw themselves into the lists at tournaments or jousts. The intense excitement of fighting was called the "heat" of battle, which became the name for any great single effort of will or stamina. -
